“THE QUALITY ALTERNATIVE”

Save Money without Sacrificing Quality

- Printer Support Corp. cartridges are made in the USA and Canada while a majority of other toners are manufactured overseas.
- An Economical Alternative
Particularly with the recent increases in prices on OEM supplies, high-quality aftermarket supplies provided by Printer Support Corp. are a viable alternative. No sacrifice in quality or delivery, and discounted costs.
- Environmental Consideration
Even in the shaky economy, “green” initiatives are still popular. What easier way to accomplish this than switching imaging supplies?
- Mature and technically advanced, quality is equal to the OEM

Commitment to Quality

We understand the importance of producing a quality product and how difficult it is to compete without quality. This objective is ensured through our rigorous forms of research and testing.

Every Printer Support Corp. compatible cartridge is tested prior to leaving the facilities, which results in outstanding quality. Printer Support Corp. compatible cartridges are manufactured in accordance with ISO 9001:2000 certification standards.

Quality Assurance is established by following these standards and procedures, along with continuous inspection throughout all phases of production. The results are exceptional quality on our entire line of imaging supplies. We are consistently evaluating the OEM and other competitor's cartridges to benchmark our quality.

Accreditation

ISO 9001 Certified Quality Management System

is an international standard that defines models of Quality Systems and policies. Our Quality Policy complies consistently with our customers' expectations and specifications requirements. Employees are made aware of the company policy through quality audits, quality assurance procedures and employee training.

STMC Certification is scientifically conducted Standardized Testing that judges quality and product improvements in an unbiased and scientific manner. This is a method utilized to prove our cartridges perform as we say they do, and that the yield and quality meet or exceed that of the OEM.

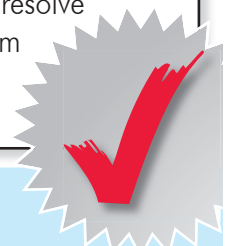

Warranty

For a period of one year from the purchase of any product from Printer Support Corp., we guarantee that under normal use and storage conditions, your product will perform to your satisfaction.

If you are not satisfied with your product, please contact your Printer Support Corp. representative and we promise to resolve your problem quickly.

100% Satisfaction Guarantee

If for some reason a Printer Support Corp. cartridge is not performing to our strict specifications, immediate action will be taken to resolve the problem and prevent it from

COLOR

Tremendous improvements in the color aftermarket have been made. Our research and development department has been working diligently to develop higher quality products that will perform to the OEM standard. We continuously perform testing on all supplies to ensure that this improved quality is passed onto our customers.

Environmental Commitment

By choosing Printer Support Corp. compatible toner cartridges, you are helping to ease the burden of e-waste on our environment. Printer Support Corp. takes pride in helping organizations become more environmentally responsible, while helping to reduce the cost of printing in the office. We are dedicated to minimizing environmental damage and to providing a clear and positive environmental alternative.

- Each cartridge that is remanufactured saves approximately 1 gallon of oil.
- Every 6 months the remanufacturing industry saves 11 million gallons of oil. This is equal to the amount of oil that was spilled in the Exxon Valdez disaster in 1989.
- Our boxes are composed of three layers of recycled material.
- No hazardous chemicals or resources are used in the manufacture of our boxes.

We Will Collect Your Used Cartridges

As part of our commitment to the environment, we offer multiple options for the convenient return of your empty cartridges. Contact your Printer Support Corp. representative to learn more about how our imaging supplies can help you make a difference in our environment.

Not Recommended by Printer Support Corp.

Toner Cartridges Known as "Drill and Fill" - A hole is drilled into the side of the empty cartridge and is then filled with toner and sealed. Printer Support Corp. does not sell "Drill and Fill" products as we cannot guarantee the performance or quality of these products. The toner from "Drill and Fill" cartridges is likely to leak and can cause significant damage to the printer.
